Earth-Science Reviews, 30 (1991) 331
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 30, 1991

A review of the structure, petrology, and dynamic deformation characteristics of some enigmatic terrestrial structures
C.B. Officer (Hanover, N.H., U.S.A.) and N.L. Carter (College Station, Texas, U.S.A.) 1
Basin analysis predictions of known hydrocarbon occurrences: the North Sea Viking Graben as a test case
J.E. Iliffe and I. Lerche (Columbia, S.C., U.S.A.), and S. Cao (Edmonton, Alta., Canada) 51
Geology, basin analysis, and hydrocarbon potential of Mozambique and the Mozambique Channel
A.E.M. Nairn, I. Lerche and J.E. Iliffe (Columbia, S.C., U.S.A.) 81
Comets: clues to the early history of the solar system
S. Wyckoff (Tempe, Ariz., U.S.A.) 125

The GIN Sea – A synthesis of its physical oceanography and literature review 1972–1985
T.S. Hopkins (San Bartolomeo, Italy) 175
